Sr. No.	Website URL	Purpose of Website	Things liked in the website	Things disliked in the website	Overall Evaluation of the website
1	https://indianairforce.nic.in/	This website allows user to know about Indian Air Force like various vacancies, inventory, training etc.	The colour scheme used is excellent and is as per the domain of the website.	The website takes time to load.	Website is good but optimisations can be done to improve performance.
2	https://retail.sbi.bank.in/retail/login.htm	Allows bank users to check their balance, tracks cards and their limits, edit personal information etc.	The website responds within no time and enhances customer experience.	The website looks old fashioned and dull.	The website processes data swiftly but UI can be improved.
3	https://www.cricbuzz.com/	Allows users to track various cricket matches happening around the globe.	The website uses simple navigation.	The website uses minimal colours and fonts.	The website is good but can be improved by adding more stylish fonts and colours.
4	https://www.hotstar.com/in/home	Allows users to watch matches, serials, TV shows, TV channels.	Excellent response time and content rendering.	The website sometimes render content which might not be suitable for a particular age group	The website can harm the sentiments of the individuals and can mislead them.
5	https://www.google.com/maps	Allows users to navigate across places, measure distance between places etc.	The website uses satellite view which provides a clear view of the area.	The website responds slowly and takes time to render area map.	The website is overall good but improvements can be made in performance.
